## SPECIFIC RULES

The competition system includes qualification and elimination rounds. The qualification round for the recurve bow categories consists of one 72 arrow, 70 meters Round for both Men's and Women's. Book 2, article 4.5.1.7 of the World Archery Federation Rules.

In the case of compound bow, the qualification round consists of 72 arrows, 50 meters for both Men's and Women's. Book 2, article 4.5.1.5 of the World Archery Federation Rules.

The individual elimination round for recurve bow consists of games that are defined by set points in a simple elimination system, where the winner of each game passes to the next round and the loser is eliminated. Each set consists of 3 arrows shot at 70 meters in 2 minutes in simultaneous shooting games, and in 20 seconds per arrow in alternating shooting games. The winner of each set earns 2 points, the loser 0 points, and in a tied set, each archer gets 1 point. The victor is the first archer to total 6 set points. When a game is tied to 5 set points per archer, an additional arrow is shot and the winner is the archer with the arrow closest to center. Chapters 12, 13 and 14 of the World Archery Federation Rules.

Seeding in the simple elimination system corresponds to the place obtained in the qualification round (sum of the 72 arrows). Article 4.5.1 of the World Archery Federation Rules.

The individual elimination round for compound bow consists of games that are defined by the sum of total points earned in 15 arrows (shot in 5 sets of 3 arrows each). Competition is in a simple elimination system where the winner passes to the next round and the loser is eliminated. Each set is shot at 50 meters, in two minutes in games with simultaneous shooting, and in 20 seconds per arrow in games with alternating shooting. In case of a tied score after the 15 arrows have been shot, an additional arrow is shot and the winner is the archer whose arrow is closest to center. Chapters 12, 13 and 14 of the World Archery Federation Rules.

The team elimination round in recurve and compound bows takes place in a simple elimination system, where the winning team passes to the next round and the loser team is eliminated. Chapters 12, 13 and 14 of the World Archery Federation Rules.

Each team compound bow game consists of 24 arrows for same sex teams and 16 arrows for mixed teams. Chapters 12, 13 and 14 of the World Archery Federation Rules.

Each team recurve bow game is defined by set points. Each set consists of 6 arrows (2 per archer). The set winner gets 2 points, the loser 0 points. In tied games each team gets 1 point. Sets in mixed teams consist of 4 arrows (2 per archer). The team to first reach 5 set points wins the game. Chapters 12, 13 and 14 of the World Archery Federation Rules.

If there is a tie in the sum of points (compound) or set points (recurve), a series of 3 arrows is shot (1 per archer in each team), or two arrows (1 per archer in each team) in the case of a mixed team. Time for a tie-breaker is 1 minute in same sex teams and 40 seconds in mixed teams. The highest cumulative points in the shoot-off determines the winner. If the score is the same, the arrow shot closest to the center shall resolve the tie and the winner. Article 14.5.2.2 of the World Archery Federation Rules.
