The Sports Registration Manual has been created for the purpose of guiding the National Olympic Committees (NOCs) in the use of the Registration System for athletes and officials who will be part of the XXIII Central American and Caribbean Games Barranquilla 2018.

The Registration Manual provides the necessary instructions for the Preliminary Registration (Long List), the Number Registration and finally the Name Registration.

The Manual contains step-by-step screenshots on how to use the GMS Sports Registration System, and sections dedicated to each registration (Preliminary, Number and Name), explaining in detail how to register an athlete or official in a sport, discipline or event.

Late Athlete Replacement Policy for the XXIII Central American and Caribbean Games Barranquilla 2018

The deadline for the Name Registration is **24:00 hours of June 19, 2018, Colombian time.**

In exceptional cases of medical emergencies, the CACSO and some Sports Confederations may allow the permanent replacement of an athlete for another, only in the same sport, the same discipline and the same event, even if the deadline has expired.

Based on the CACSO Manual a medical replacement must meet the following conditions:

1. The CACSO must authorize and approve the replacement.
2. The athlete and alternate athlete (P) must be registered in the Preliminary List (Long List) to participate in the XXIII Central American and Caribbean Games Barranquilla 2018.
3. In accordance with the CACSO Regulations, an athlete may be replaced by another athlete only under the following conditions:
 - 3.1. An athlete has a medical condition that prevents him from continuing the competitive activity, and:
 - 3.1.1. The physicians of the International Federation (IF) and the NOC of the athlete in question agree that the injured athlete may be replaced by another athlete (if such medical condition occurs before the arrival of the athlete in the country, the consent of the IF will not be necessary).
 - 3.1.2. The Official Athlete Replacement Form specifies the athlete to be replaced and the replacement athlete (this form must be signed by the Chief of Mission or his representative, by the corresponding Sports Confederation physician and the NOC to which the athlete belongs, and must be sent to the Sports Registration Department of the Organizing Committee and the CACSO).
 - 3.1.3. The Sports Registration and Eligibility Forms were filled out by the replacement in accordance with the rules of the sport and sent to the Sports Registration Department of the XXIII Central American and Caribbean Games Barranquilla 2018 and, if applicable, the Parental/Legal Guardian Authorization Form of the substitute athlete must also be filled out.
 - 3.1.4. The Accreditation Form has already been completed and sent to the Accreditation Department of the XXIII Central American and Caribbean Games Barranquilla 2018.
 - 3.1.5. The Accreditation of the athlete being withdrawn was returned to the Accreditation Department and canceled, in order to grant the same accreditation rights for the replacement.
 - 3.1.6. The CACSO and the respective International Federation and/or corresponding Sports Confederation approved the replacement.

3.2. The replacement will be made only at the Accreditation Center, located in the Central American and Caribbean Villa. The Sports Registration Department must confirm the rights of the replacement athlete. All documents must be filed with the Registration and Accreditation Department.

3.3. All requests for replacements due to medical emergencies shall be submitted to the Sports Registration Department.

It is important to remember that the cost of the replacement of the Accreditation will be borne by the NOC. (For more information on the Cost, see the NOC Fee Payment Manual).

All documents and inquiries related to this topic should be sent by email.

The Sports Registration Department will in turn send all the queries received to the Athletes Accreditation Department.

The aforementioned policy is subject to changes made by the CACSO should any exceptional situation occur.

GMS SYSTEM

The Preliminary Registration (Long List) can be done in the GMS System; however, the registration of athletes and officials will be done individually.

In the GMS System you can access the Registration through the "Registrations" button located at the top of the System.

Individual Registration

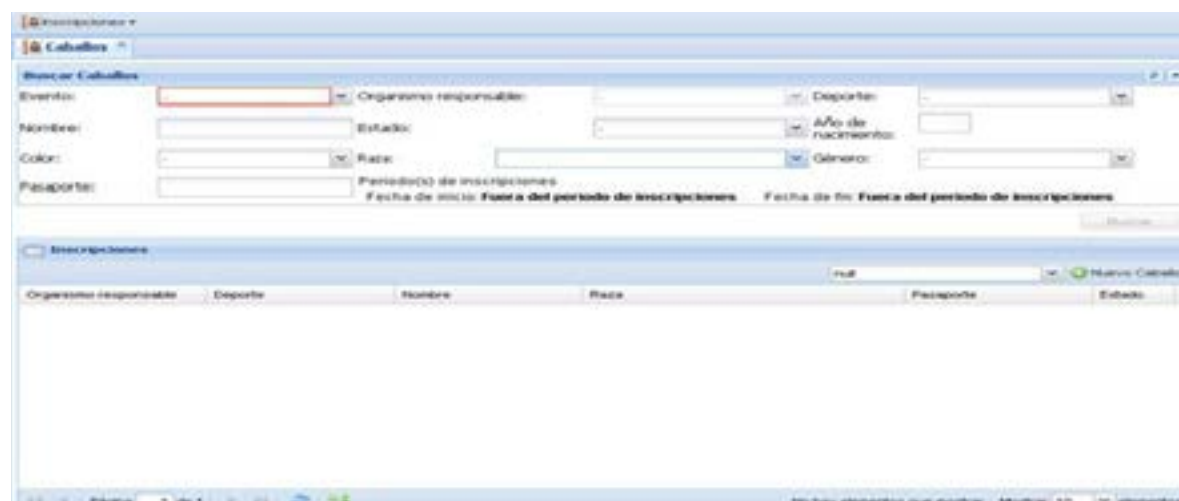

Individual registration is required for all athletes participating in a specific event.

Horse

The NOC participating with athletes in any Equestrian event must register the participating and reserve horses. To register horses, follow this route: Registrations, Horses.

Clicking on the "Horses" button opens the following window:

The upper part allows filtering the search of horses by using several filters once they have already been registered. The bottom part shows the results of the search.

A new horse can be entered for registration through the "New Horse" button. The following screen will be displayed:

After completing the required information of the horse, click on "Accept" to record the data. Fields highlighted in red (*) are required and the "Accept" button will not be enabled if any of these required fields is not completed.

Once you click "Accept" the following message will appear:

The registered horse will appear with the status 'Pending Registration'. The NOC must confirm the registration after making sure the information is correct. To change this status, right-click on the record and click 'Confirm'. The option to 'Delete' is also available.

If you confirm the registration, the following message will appear:

After confirming the registration, the status of the registration will change to 'DRM Pending'. Then, you can export the data to PDF by right-clicking on the record in order to have a report of the registered horses.

The registration of the horse cannot be modified after confirmation.

The Committee may cancel the confirmation by right-clicking on the desired record, and the registration will return to the initial status of 'Pending Registration'.

The upper part contains a series of filters for the records:

- Event
- Report
- Sport
- Responsible Organization
- Gender

The lower part contains a series of filters for the status:

- DRM Pending
- Pending Registration
- Confirmed after DRM
- Dismissed

All the reports can be exported both to Excel and PDF by clicking on the corresponding buttons.

REGISTRATION REPORTS

In this same module, a series of reports can be extracted and different forms can be generated.

Clicking on "Registration Reports" displays the following window:

NUMBER REGISTRATION

For the Number Registration, each NOC must indicate the number of Athletes (Aa) by sport and event that it intends to register for the Games, as well as the Officials (Ao).

ATHLETES

To register an Athlete in an event, double-click on the desired slot and fill in the specific sport information required.

On the upper part, the "Quota Places Information" of the event is displayed.

The field "Person" will display a drop-down list of athletes previously registered for the event. Select one from the list and complete the "Personal Information" and marks. Fields highlighted in red (*) are required. The "Accept" button will not be enabled and the registration cannot be sent if any of these required fields is not completed.

After completing the registration application and accepting the changes, the registration will be recorded in "Pending Registration" status:

The registration application can be modified during this status (Pending Registration). To modify it, double-click on the vacancy in question, modify the desired information and save the changes again:

After creating the registration application, you will be able to see the corresponding slot completed, as well as the status of the application and of the registration.

When the registration is ready, it may be sent for validation or denial by the Organizing Committee. To do this, right-click on the desired record and two options will appear:

- Change to "DRM Pending"
- Erase registration

After changing from "Registration Pending" to "DRM Pending" it may no longer be modified. After making this change, the registration will be pending for review in the DRM.
