QUALIFICATION CRITERIA AND TIE-BREAKERS IN THE PRELIMINARY ROUND

To establish team qualification after the preliminary round, team qualification will be determined as follows:

By results in games won and lost.

In the event of a tie in the number of won and lost games between two or more teams in the same group, final qualification will be determined by the amount of points obtained between teams in a same group during the preliminary round.

The following points will be given to each team per game, according to won and lost games:

Game Won 3-0 = 5 points

Game Won 3-1 = 4 points

Game Won 3-2 = 3 points

Game won by forfeit = 0 points (25-0; 25-0; 25-0)

In the event of a tie in the amount of points obtained by two or more teams the tie-breaker will proceed according to the list of points according to FIVB's Sports Regulations; taking the following criteria into consideration by order of importance:

Point Quotient: In the event of a tie in the number of points earned by two or more teams, these will be qualified in descending order by the resulting quotient of the division of all scored points between the total of lost points.

Set Quotient: If the tie remains after the point quotient, then teams will be qualified in descending order by the quotient resulting from

the division of the number of all won sets between the number of lost sets.

If the tie persists after the set quotient, priority will be given to the team that won the last game played between the two teams that are tied.

When the tie happens between three or more teams, a new qualification of teams will be made, considering only the games played among the tied teams.
