MANUAL FOR THE ENTRY AND EXIT OF FIREARMS AND/OR NEUMATIC WEAPONS FOR THE CENTRAL AMERICAN AND CARIBBEAN GAMES 2018

This is a guide for all delegations to have clear information when entering Colombia with firearms and pneumatic weapons for their participation in the Central American and Caribbean Games Barranquilla 2018.

Host city: The host city of shooting sports is Barranquilla, so flights must reach the city of Barranquilla directly or with a stop in another Colombian city, but they must be with the same airline and the documented bags must be delivered in the final destination city, Barranquilla.

Documents: For all firearms, a "temporary import and export permit for weapons" will be issued. For all pneumatic weapons, the Colombian Sport Shooting Federation will send the customs and police authorities a list of weapons informing the entry of pneumatic weapons for the Central American and Caribbean Games Barranquilla 2018.

Entry procedure: Firearms and pneumatic weapons must be listed in the DIAN 530 Form, which will be delivered in the plane before landing in Colombia. This form must be completed in full, paying special attention to the following questions:

Are you carrying within your luggage goods other than personal effects valued in excess of \$1.500 USD?		
Are you temporarily bringing goods other than your personal effects into or out of the country?		

These must be answered affirmatively.

Firearms and pneumatic weapons, along with their serial numbers, should also be listed in the following section of the form:

Luggage information					
Item	Quantity	Goods description (Brand, model, serial number)	Temporary entry or exit	USD Value	Customs value (Official use only)
Total value in USD					
If the space provided is insufficient, or if you need a duplicate of this declaration, please use an additional form, indicating herein the corresponding "Form number"					
Traveler's signature					Date of arrival / departure Year Month Day

Upon arrival in Barranquilla and after going through immigration, you should claim your bags (weapons and conventional suitcase) and head to the DIAN of the Barranquilla airport, submit form 530 and the firearms permit or the letter for pneumatic weapons, as appropriate, and tell the officer that you need to make a "temporary importation." The officer will guide you through the rest of the process. The result will be a DIAN document that certifies the entry into Colombia of pneumatic weapons and firearms.

Exit procedure: Before going through immigration, you must head to the DIAN of Barranquilla and indicate that you are going to close the temporary import of your firearms or pneumatic weapons, the DIAN official will verify that each person leaves with the same elements with which they entered Colombia (sporting weapons). The result of this process will be a document stating that your weapons will leave the country. Please keep in mind that you must send this document by email to info@fedetirocol.com.co and gerencia@fedetirocol.com.co to be able to close the process with the DCCA. When you finish your procedure with the DIAN, you can go to the airline to check your bags. Do not forget to inform the airline's staff that you are traveling with sporting weapons and that you have already closed the temporary import procedure with the DIAN

Do not surrender your weapons in the airline until you have completed the procedures with the DIAN.

By order of the Department of Control and Trade of Weapons, Ammunition and Explosives (DCCA), only 500 shots will be allowed for each athlete; however, it is necessary to take into account the aeronautical provisions on the maximum amounts of ammunition that can be transported.

Rio and Condor 12-gauge shells and .22 caliber Eley ammunition will be sold in Colombia. We welcome you to the Central American and Caribbean Games Barranquilla 2018.
